Swimming Pool Cover Guide

([Click Here to download](#))

Learn the Swimming Pool Cover Secrets
that your Pool Guy Will Never Tell You

[Most Important Pool Cover Factors to Consider](#)

Cover Type

Proper Cover Size

Best Installation Method

In Order To:

- # MAXIMIZE & MAINTAIN POOL SEALING !
- # MINIMIZE POTENTIAL COVER DAMAGE !
- # EXTEND USEABLE COVER LIFE !
- # QUICK & EASY SPRING OPENING !

THE BEST TYPES OF Winter Swimming Pool Covers

Reinforced Poly Swimming Pool Covers

Are the most common covers in use at this time

There are many grades of these covers,
The Main Difference Being the Number
of Reinforcing Fibers Per Square Inch

THE BEST has a Weave of 12 x12

(12 fibers going each direction per square inch)

When ordering a new cover

It is Important to Note

that some are sold as actual "COVER SIZE"
and some as "POOL SIZE"

Both are normally available with either
a 3ft or 4ft overlap

(24ft pool size may be either a 27ft or 28ft cover size)

ABOVE GROUND

SWIMMING POOL COVERS

Round, Oval, & Rectangle

These Covers have traditionally used Air Pillows
in the center of the pool to support the cover.

Cable & Winch Assembly

is then employed to secure the cover
to the outside circumference of the pool.

In some parts of the country
this arrangement works fairly well,
however, High Winds may not only cause
substantial damage to the cover
but also allow all the leaves & debris
that was on top of the cover
into the pool making pool opening
A NIGHTMARE !!

**A MUCH BETTER METHOD
for covering your pool**

that has proven to
MINIMIZE COVER DAMAGE,
MAXIMIZE POOL SEALING,
EXTEND USEABLE COVER LIFE !

AND

**Make Spring Opening
QUICK & EASY !**

Use a cover that Is One Size
Larger than normally required.

Let the cover hang down the inside wall
of the pool and

Lay Flat on the Water.

Then Put 1.5ft or so of water
on top of the cover

and Tighten Down with the Winch and Cable

How to drain the water off your cover without a Pool Cover Pump

Attatch your Vac Head (or another weight) to your Vac Hose
and drop it into the center of the cover then stretch out
and use your garden hose to fill the vac hose with water.

Then lay the vac hose on the gound and now you should have
a full flow of water off your cover. When the water level drops
to a level that stops the siphon function simply fold the cover
back on itself and move the weighted end of the Vac Hose
to the center of the remaining water and restart the siphon.

Install a Leaf Net

over your winter pool cover

The Leaf Net's tight mesh traps the leaves
before they reach your winter cover.

Eliminate that Swamp of Messy Decaying Leaves!

Simply lay the leaf net on top of your winter cover
when you close your pool

Your cover will be virtually leaf free and

Spring Clean-up will be Fast & Easy !

IN GROUND SWIMMING POOL COVERS

May Use A Similar Arrangement,
except they use Water Bags
Inserted into the Cover Loops

to hold the cover In place on the deck.

Single & Double Chamber Water Bags Are Available

Swimming Pool SAFETY COVERS

Stock Sizes and Custom Shapes

Are the Best Cover

for in-ground pools and
above-ground pools with full decks

Swimming Pool Safety Covers

Easily Support The Weight
of A Small Child or Family Pet

Made of an Extremely Tough Material that withstands a large amount of stress, they can be stretched tautly across the pool, eliminating the normal accumulation of leaves and debris so common to most other types of cover installations.

It is secured by Hi-Strength Straps attached to fasteners that are secured to the pool deck.

**Learn More about
Swimming Pool Safety Covers**

SOLID VINYL COVERS

(Not Recommended)

Still available

but not considered very practical

**TAKING PROPER CARE OF
YOUR POOL COVER**

In its off-season

IS CRITICAL TO THE COVER'S LONGEVITY.

The Easest way to do this is to take a large trash can

Fill it with a solution water and Quat Algaecide.

IN THE WARM WEATHER,

Leave the Cover in the covered can

In THE WINTER

Use the same solution to store your solar cover..

This System Will Keep The Covers

SUPPLE, SANITARY AND FREE OF RODENTS

Before Storing Your Cover

CLEAN IT COMPLETELY!!

Pool Cover Warranties

DO NOT BE MISLED

by the long advertised durations

Typicly pool cover warranties are prorated

after the 1st two or three years

and require you to also pay shipping

back to the mfg for inspection.
